This report on the results of the TIPA READERS SURVEY 2009 is strictly confidential. Only for internal use. This document cannot be distributed in whole or in part to persons/companies non-members of TIPA, without the written permission of the Board of the Association.
Readership Survey
2009
- Final Report -
Contents

1. Skeleton Data in the Survey - Method  4 - 10
2. Personal Information on the Readers   11 - 23
3. Photographic Practice                24 - 38
4. Reading Behaviour                   39 - 42
5. Attitudes to the Magazines          43 - 48
6. Attitudes to the Magazine-Websites   49 - 53
7. Buying Behaviour and
   Attention to Advertisements          54 - 59
1. Skeleton Data - Preliminary Remark

The intention of the survey was to collect valid data from the whole spectrum of readers of the TIPA-magazines.

A basic questionnaire was used for the purpose of comparability and to incorporate the results. The TIPA magazines were directed at heterogeneous target groups, which is why the original draft was adapted to the target groups.

Two versions were created:

- for professional magazines and
- for consumer magazines
1. Skeleton Data - Synopsis

Coordinated readership survey with self-administered questionnaires
Duration: November 2nd 2008 – March 5th 2009

Participants: 17 magazines from 10 countries

Total returns N = 5.666
Analysed returns: Na = 4.108

Returns by mail: 70 %
Returns by fax: 30 %

One magazine published the questionnaire only as an online survey.

Implementation of the survey - concept, recording, analysis:
WIP Wissenschaftliches Institut für Presseforschung und Medienberatung, Cologne
1. Skeleton Data - Method I

Returns / Formation of units

The returns for each magazine were recorded separately. There was a large degree of fluctuation, with the smallest return consisting of 30 questionnaires and the largest consisting of more than 1,200.

For the purposes of the analysis, the individual magazines were grouped in order to arrive at a sufficient yield. The overall results were calculated from average figures of the 15 units formed.

Reasons for the formation of the units were:
• a high degree of fluctuation in the returns
• some deviations in the questionnaires
• the heterogeneous character of the magazines
• different living conditions in the participating countries

Each unit achieved an average return rate of 270 questionnaires.
Presentation of the Results

The initial focus was always on the overall results which flowed into the results for all magazines. Where appropriate, WIP also differentiated between the magazines, both by target group and by European region.

Each target group distinguished between:

• magazines aimed chiefly at professionals.
  More than 40% of the readers took photographs in their capacity as professional photographers or in the course of their work

• magazines aimed chiefly at consumers.
  More than 75% took photographs privately or semi-professionally

The photo magazines were also grouped by European region:

  Western Europe:  the Netherlands (Holland), France, the United Kingdom
  Central Europe:  (1) Switzerland, Germany, Poland, Hungary; (2) Switzerland, Germany
  Southern Europe:  Spain, Italy, Greece
1. Skeleton Data - Magazines for Professionals

Magazines aimed chiefly at **professionals**

- “I take photographs as a professional photographer”
- “I take photographs as a professional user”
  > 40%

6 Magazines  
6 Units  
5 Countries

average of 281 questionnaires/unit
1. Skeleton Data - Magazines for Consumers

Magazines aimed chiefly at **consumers**

“I take photographs privately”
> 75 %

11 Magazines
9 Units
8 Countries

average of 269 questionnaires/unit
1. Skeleton Data - Magazines by Regions

- **Central**
  - 3 Professionals
  - 3 Consumers

- **West**
  - 2 Professionals
  - 2 Consumers

- **South**
  - 1 Professional
  - 6 Consumers
2. Personal Information - Overall Results

Initial comment: In the surveys the readers often left questions unanswered. The results with the personal information are presented without these missing data and extrapolated to 100%.

- The readers of the TIPA-magazines are predominantly male. Only every sixth reader is female.

- The average reader is 44 years old. On average, the women are clearly younger than the men (36 to 45 years). Half of the readers are between 30 and 50 years of age.

- In the group of magazines for consumers more than every second reader (53 percent) reported a net monthly household income of 2,000 Euros or more. Nearly every third (31.5%) household has an income of under 1,500 Euros.
2. Personal Information - Sex

Overall

Female 15.7 %

Male 84.3 %
Western European magazines have the smallest percentage of female readers.

The magazines in Southern Europe have the highest proportion of women readers.
2. Personal Information - Average Age

Average Age Overall

Total     43.9  years
Male      45.3  years
Female    36.3  years
2. Personal Information -
Average Age by Target Group

<table>
<thead>
<tr>
<th>Average Age - Professionals</th>
<th>Average Age - Consumers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total</td>
<td>Total</td>
</tr>
<tr>
<td>46.0 years</td>
<td>42.6 years</td>

<td>43.7 years</td>
</tr>
<tr>
<td>Female</td>
<td>Female</td>
</tr>
<tr>
<td>36.9 years</td>
<td>36.0 years</td>
</tr>
</tbody>
</table>

The average age of the male consumers differs significantly from that of the male professionals.
2. Personal Information -
Average Age by Region

- **Average Age West**
  - Total: 48.1 years
  - Male: 49.2 years
  - Female: 39.4 years

- **Average Age Central**
  - Total: 44.6 years
  - Male: 46.2 years
  - Female: 34.4 years

- **Average Age - South**
  - Total: 41.3 years
  - Male: 42.5 years
  - Female: 36.7 years

Readers in Western Europe are approximately four years older than the average.

In Southern Europe, the readers are 2.6 years younger than average.
2. Personal Information - Age Distribution

Overall Age

The reader group under 29 years of age is larger than the over-60's.
Among the consumers, there are clearly more readers under 40 years than among the professionals.
2. Personal Information - Age Distribution by Region I

Age West

-29: 6.2%
30-39: 17%
40-49: 30.9%
50-59: 26.8%
60-69: 17%
70+: 2%

Age Central

-29: 15.4%
30-39: 20.7%
40-49: 25.9%
50-59: 22.6%
60-69: 12.3%
70+: 3.1%
The readership of the magazines in Southern Europe is distinctly younger. 44 percent of the readers are in the age group under 39 years.

These results correspond to the age-structures in the respective populations.
Nearly every third (31.5%) household has an income of under 1,500 Euros.
2. Personal Information - Income Consumers by Regions I

Net Monthly Household Income in Euros

Income Region West: Results only for one magazine
2. Personal Information -
Income Consumers by Regions II

Net Monthly Household Income in Euros

Lower incomes in Hungary and Poland
3. Photography Practice Professionals - Overall Results

• The majority of readers – three of four – described themselves as amateurs or as semi-professional photographers.

• Readers of TIPA magazines confirmed their role as multipliers.
3. Photography Practice: “I take photos...”, I

... as a professional photographer
... as a professional user
... semi-professionally
... privately

Overall

- 19.9% professional photographer
- 5.8% professional user
- 18.3% semi-professionally
- 56% privately

Some 26 percent of all readers take photographs in a professional capacity. The majority of readers take photos privately.
Nearly every third reader of the magazines for professionals is an amateur.

By way of contrast, 10 percent of the readership of the consumer magazines are professionals.
The greatest number of readers of the magazines for professionals work in people/portrait photography. Nearly every third reader is also active in fine art or photo journalism.

Note: More than one answer was possible.
3. Photography Practice Professionals – number of prints per month

All Regions

For my own purposes
Average per month: 119 Prints

For clients/exhibitions
Average per month: 231 Prints

Note: This number may be too high due to a possible translation error in a magazine in the South Region.
3. Photography Practice Professionals – number of prints per month by Regions

**WEST**

For my own purposes  
Average per month: 30 Prints

For clients/exhibitions  
Average per month: 79 Prints

**CENTRAL**

For my own purposes  
Average per month: 94 Prints

For clients/exhibitions  
Average per month: 160 Prints

*Region South: Results only for one magazine.*

3. Photography Practice Consumers - „The following applies to me“; I

These statements made:

“I frequently participate in **photographic competitions**”

“My photographic equipment ought to be in line with state-of-the art technology”

“I spend at least as much on photographic accessories as on my camera(s)”

“I regularly **advice** others on the purchase of photographic equipment”
3. Photography Practice Consumers - “The following applies to me” II

Readers as multipliers

completely true / true

- participate in competitions: 28.20%
- equipment ought to be in line: 44.00%
- spend as much on accessories as ...: 47.40%
- regularly advise others ...: 61.90%
4. Reading Behaviour - Overall Results

• Every second respondent in the survey was a single copy buyer, 39 percent were subscribers. Four Magazines are also distributed as free copies. Every fourth reader in the survey obtained these magazines as free copies.

• The readers pick up their photo magazine an average of 6 times and read it for a total of 82.8 minutes. (Due to the difference in periodic variation, no distinctions were made by target group or by region.)

• Overall, all TIPA titles show an average probability of 84 percent page exposure. This means that advertising customers can be fairly certain that their own advertisements will not be skipped over.

• The vast majority of readers take every issue. Referred to all titles, every single issue on a statistical average reaches almost 72 per cent of the readers from the maximum readership.

• On average, every copy of a magazine is read by 2.3 people.
4. Reading Behaviour - Magazine Purchases

All Magazines:
Single-copy sales 48.0 %
Subscription 39.1 %
Pass-on reader 4.4 %
Unpaid sample copy 1.4 %
Club or library copy 3.3 %

4 Magazines:
Free copy 24.7 %
4. Reading Behaviour I

"Of any one issue of {title} I normally read ..."
Overall

Probability of page exposure: 84.0 % (66.0 % - 95.6 %)
4. Reading Behaviour II

Reading Time: 82.8 minutes
  Minimum average: 44 minutes
  Maximum average: 110 minutes

Frequency of Utilisation per Copy: 6.0
  Minimum average: 2.7
  Maximum average: 9.0

Readers per Copy: 2.3
  Minimum average: 1.6
  Maximum average: 3.0

Readers of maximum readership per number:
  71.1 %  51.9 % - 96.1 %
5. Attitudes to the Magazines - Overall Results

- Overall, the TIPA readers have a positive opinion of their photo magazine. More than 73 percent of respondents agree with all provided statements.

- 94 percent of the readers classify their magazine as an “important magazine”, 92 percent as “reliable and competent”.

- Seen objectively, photo magazines are the most important sources of information for the readers. Fully 96 percent of respondents say they regularly obtain information from this source.

- 54 percent of respondents say they rely on photo magazines the most. A further 18 per cent did not give any details on the source they trust the most.
5. Attitudes to the Magazines - Ratings

I rate the magazine as follows (completely true / true):

- important magazine: 94.3%
- reliable and competent: 91.6%
- I would miss it: 86.3%
- inspiring magazine: 82.7%
- high level of practical use: 86.0%
- tips for selecting accessories: 80.5%
- tips for buying cameras: 83.2%
- makes market transparent: 73.1%
5. Attitudes to the Magazines - Information Sources

- After photo magazines, the internet is the second-most important source of information, being used by 74 percent of readers. Company brochures and the readers’ specialist dealers followed.

- What was remarkable was the difference between professionals and consumers in their use of trade fairs and company brochures.

- Overall, the professionals use more sources than the consumers.

- Only every fourth reader uses computer magazines and every fifth reader uses multi-topic magazines to obtain information about photographic equipment.
### 5. Attitudes to the Magazines - Information Sources by Target Group

I regularly obtain information... (in %)

</table>
5. Attitudes to the Magazines -
“I trust most in …”

• The readers rely mostly on the photo magazines. 54 percent of respondents said they rely on this source of information the most. The internet, very important as a source of information, enjoys a high level of confidence for only 15 percent of readers. The dealers follow in third place with 7 per cent of responses. 18 per cent of readers did not give an unambiguous answer.

• The professionals’ degree of reliance on photo magazines is less pronounced than that of amateurs. Overall, they are more sceptical and prefer to form their own opinions using information from several sources.

• The ratings of credibility for computer magazines or multi-topic magazines are very poor (<1,5 %).

6. Attitudes to the Magazine-Websites

Overall Results

- 15 of 17 magazines have their own Website on the World Wide Web.

- Three of Four readers have already visited the Website of their photo magazine or use it regularly.

- Every second reader visits the Website of his magazine at least once per month.

- The Websites of the photo magazines are primarily used
  - to keep up-to-date in matters concerning photography
  - to look up test reports and photos of tested products
  - to find out about dates: events, exhibitions, competitions

- Readers who had already visited the internet sites of their photo magazines judged them as very good. Four of five users found them “a successful site” and agreed with the statement “contains additional, relevant information”.

- Consumers visibly use the Websites more extensively than professionals.

Both target groups think their magazines have successful Websites.
7. Buying Behaviour and Attention to Advertisements - Overall Results

- Interchangeable lenses are the readers' top priority in purchasing intentions, followed by digital SLR cameras. Illustrated photobooks follow in third place for readers of the consumer magazines, photo/graphics software follow in third place for readers of the magazines for professionals.

Adding up everything, **last year every reader of the magazines for professionals spend approximately 8.030 EUR on his photo equipment, expenditure on consumables and laboratory services.**

- 82 per cent of the TIPA readers say that they always or often read advertisements. And four out of five readers also find that advertisements have informational value.

- Every second reader was prompted by an advertisement into buying a photography-related article.
